7.17.6 AI Data Privacy and Security

Source: PDF pages 2–3

- Baldwin County Public Schools are committed to complying with federal. state, and local laws, rules, and regulations, and other entities that provide standards for compliance to ensure data privacy and security are maintained for data used in AI systems. We will ensure that the Contractor's AI systems comply with all applicable federal, state, and local laws, rules, and regulations, and other entities that provide standards for compliance.
- Baldwin County Public Schools are dedicated to ensuring data to be used in the AI systems will meet the data quality standards established by our Data Governance Committee.
- Baldwin County Public Schools will provide teachers with training about vetted resources and guidance on acceptable data privacy and security practices.
- Use of user's data to train new AI Systems: Baldwin County Public Schools will include in our procurement and contract document(s) verbiage dedicated to usage of intellectual property and/or data, to which the Contractor shall attest when submitting their proposals and any contract executed to perform the work.
- No personally identifiable information (PII) shall be used in creating accounts or using software that has AI components without approval.

7.17.7 AI Procurement

Baldwin County Public Schools will conduct a detailed needs and capability assessment before procuring an AI system. Teachers/schools are prohibited from purchasing/using unapproved AI systems with BCBE students. We will evaluate the AI system for its effectiveness, ease of use, and compatibility with existing systems. In the procurement process, we will consider cost. data privacy, security, human-in-the-loop development. algorithm bias, model cards, system cards, interoperability, service-level agreements, key performance indicators, customizability, configurability, scalability, legal compliance, and contractor support.

Baldwin County Public Schools will obtain a written statement from each contractor that:

- The AI model(s) have been pre-trained and no data is being used to train a model to be used in the development of a new product.
