Cherry Creek AI Guidance: Data and Student Privacy Passages

Excerpted verbatim from *Artificial Intelligence (AI) Guidance (Cherry Creek School District, Colorado)*. The source has no page numbers; locations are given by section. Ellipses (…) mark omitted text. This is a web page with audience tabs (elementary, middle, high school, educators, administration, support staff, families), FAQs, and a policy list.

Guiding Principles (excerpt)

Source: web page, introduction

Keeping student and staff information safe builds trust and creates a secure environment where learning can thrive. When people feel protected, they are more willing to explore, think, and grow.

Guidance for AI Use: Elementary

Source: web page, tab 'Elementary'

Safe

Your privacy and safety come first when using AI.

Never type your name, school, or personal information into AI tools. The tools you use at school are chosen to help keep your information safe.

Guidance for AI Use: Middle School

Source: web page, tab 'Middle School'

Safe

Protect yourself and your data online.

Think carefully about what personal information you share with AI. Only use AI tools approved by the school and follow guidelines to keep yourself and others safe.

Guidance for AI Use: High School

Source: web page, tab 'High School'

Safe

Be aware of privacy, security, and digital ethics.

Use AI in ways that respect data privacy, school policies and legal standards, digital ethics, and your own well-being. Use AI responsibly and be aware of overreliance on AI.

Guidance for AI Use: Educators

Source: web page, tab 'Educators'

Safe

Protect student privacy and wellbeing at all times.

Use only district-approved AI tools and never upload student personally identifiable or sensitive information into external systems. Protect your own well-being by using AI responsibly and be aware of overreliance on AI.

Guidance for AI Use: School Administration

Source: web page, tab 'School Administration'

Safe

Safeguard privacy, security, and student wellbeing at all times.

Ensure only district-approved AI tools are used and that all privacy, data protection, and security requirements are followed. Promptly address any concerns related to misuse, bias, or breaches.

Guidance for AI Use: District Support & Operations Staff

Source: web page, tab 'District Support & Operations Staff'

Safe

Protect data privacy and uphold security requirements at all times.

Use only district-approved AI tools and never enter staff or student personal or sensitive information into external or non-vetted systems. Safeguarding data supports the wellbeing and trust of the Cherry Creek community.

Guidance for AI Use: Families

Source: web page, tab 'Families'

Safe

Your child’s safety and privacy are a top priority.

The district reviews AI tools for security, privacy, and fairness before use. Remind your child not to share personal information with AI systems at home or at school.

FAQs (excerpt)

Source: web page, section 'FAQs'

Which AI tools can CCSD employees use?

CCSD employees should only use AI tools if they’re district-provided or have been approved through the district’s review process. When in doubt, don’t use it with student or staff data and ask your school/district tech support team.

Which AI tools can high school students use?

CCSD high school students should only use AI tools that are district-provided and have been approved through the district's review process.

Policy: What guides AI use (excerpt)

Source: web page, section 'Policy: What guides AI use'

Existing Board policies already outline expectations for equity, academic integrity, and student data privacy as they relate to AI use.

JRCB – Student Data Privacy (Adopted 8/11/25)

AI tools must pass a privacy review before use with student information.

EHC – Staff Tech Use (DRAFT – Pending Review by BOE)

Staff may use AI but must protect sensitive data and remain responsible for accuracy and quality.

AI Tools Described as Secure (excerpt)

Source: web page, section on available tools

- **Microsoft Copilot Chat:** A secure chat assistant for brainstorming, summarizing long documents, drafting emails, and general chat.
- **Google Gemini:** A secure chat partner for creative brainstorming, drafting emails, and simplifying complex topics.
