While AI tools, including automated decision tools, may be used to assist with administrative tasks, such as lesson planning, scheduling, data analysis, and managing student records, final decisions impacting students or employees must involve human oversight.

Employees are responsible for their use of AI tools and for safeguarding sensitive information. Employees shall report any security incidents or potential data breaches immediately to a supervisor or the IT department

The failure to comply with this policy or a District policy governing the release of information may result in disciplinary action, up to and including termination.
