GCPS Guidance for Human-Centered AI Use: Data and Student Privacy Passages

Excerpted verbatim from *GCPS Guidance for Human-Centered AI Use (Gwinnett County Public Schools, Georgia), web page*. The source has no page numbers; locations are given by section. This is a web page with no page numbers, so each section cites the web page section. Ellipses (…) mark omitted text.

Guiding Principles: Equitable and Inclusive (excerpt)

Source: web page, section 'Guiding Principles'

- **Equitable and Inclusive:** All students should have access to meaningful and age-appropriate AI tools that are vetted, approved, and inclusively designed with all students in mind.

Guiding Principles: Safe and Secure

Source: web page, section 'Guiding Principles'

- **Safe and Secure:** Students and staff should not be put at increased risk by using AI, nor should their personally identifying information be unlawfully shared. We will evaluate both the risks and opportunities of AI.

Guidance for Students: Evaluating AI Tools (excerpt)

Source: web page, section 'Guidance for Students'

- **Evaluating AI Tools:** Students should use AI tools with the guidance of trusted adults. Students should evaluate the purpose, safety, and trustworthiness of AI tools before use. Not all AI tools are approved or appropriate for all ages, so be sure to check with your teacher or parent first.

Guidance for Staff: Approved Tools and Vendor Approval (excerpt)

Source: web page, section 'Guidance for Staff'

Teachers and school leaders should provide guidance and expectations to students on if, how, and when they can use safe AI tools in their learning. Reference Third-Party Vendor or the Staff AI Resource Center to determine if a tool is approved for use.

- **Evaluating AI Tools:** Staff should evaluate the purpose, safety, and trustworthiness of AI tools before use. Any AI tools should be approved, based on the audience, using GCPS Third Party Vendor Approval process. Be aware of any age restrictions that might exist for tools.

Guidance for Staff: Prohibited AI Use (Privacy)

Source: web page, section 'Guidance for Staff'

- **Compromising Ethics and Privacy:** Staff should not use AI in ways that compromise staff or student privacy or lead to unauthorized data collection, as this violates privacy laws and our system’s ethical principles. Staff should never enter personal identifiable information into AI tools.
- **Noncompliance with Existing Policies:** Staff should follow Third Party Vendor policies and approved tools list, especially when supporting student use of AI tools. We will evaluate AI tools for compliance with all relevant policies and regulations, such as privacy laws and data governance policies. Be sure to check the approval details as not all tools are approved for all ages or audiences.

Guidance for Parents: Monitor and model (excerpt)

Source: web page, section 'Guidance for Parents'

- **Monitor and model:** It is important to supervise your students’ use of AI tools, especially if they are younger. It is great to monitor the tools they are using and model safe and responsible use for them. Not all AI tools are appropriate for all ages.
