Indiana AI Guidance (copy hosted by state-ai-policy-field-guide): Data and Student Privacy Passages

Excerpted verbatim from *Artificial Intelligence (AI) Guidance (Indiana Department of Education; copy hosted in the state-ai-policy-field-guide GitHub repository)*. Page numbers refer to the PDF pages of the source file. Ellipses (…) mark omitted text. This is the same document as row 154 (identical extracted text). It is a graphic infographic-style PDF with no printed page numbers; the passages below were transcribed from rendered pages and are marked [graphic].

AI Literacy: With AI Literacy, I CAN (excerpt)

Source: PDF page 1 [graphic]

- [graphic] Assess safety and privacy with apps and data sharing
- [graphic] Collect data responsibly

Security

Source: PDF page 4 [graphic]

[graphic] AI tools are powerful but can be exploited by threat actors to gain information for a strategic advantage. Consider the information to which you are providing access through your queries.

- [graphic] Ensure inputs into public-facing AI tools are free from personal identifiable information (PII).
- [graphic] Create a use policy to address best practices when making decisions about AI implementation.
- [graphic] Follow local policies regarding student data. Ensure compliance with FERPA/COPPA before using AI with students.
- [graphic] Ensure students are using AI tools approved for their age range.
- [graphic] Develop a “sandbox” where educators can practice making decisions about security issues related to AI.
- [graphic] Engage parents and caregivers in learning how to talk to children of all ages about AI safety.

Key Considerations for AI Policy: Process Guidance (excerpt)

Source: PDF page 6 [graphic]

- [graphic] Determine the hierarchy of decisions related to AI, and provide clarity about what should be considered when selecting AI supports designed to enhance student learning, especially requirements related to data privacy, security, and compliance with existing laws (FERPA, COPPA, etc.).
