Minneapolis Public Schools AI Web Page: Data and Student Privacy Passages

Excerpted verbatim from *Artificial Intelligence (AI), The Source (Minneapolis Public Schools web page)*. The source has no page numbers; locations are given by section. This is a district web page, not a paged document. Ellipses (…) mark omitted text.

Access to Resources (excerpt)

Source: web page

For data privacy concerns, some resources may require you to sign in to Google Chrome with your MPS email in order to see them.

Approved Software (excerpt)

Source: web page, Overview

MPS takes the use of AI seriously. Use of AI systems and tools must be safe and effective for students and staff. Reference the MPS Approved Software list to see which AI tools have officially been approved by MPS.

Note that not all tools are approved for everyone. For example, some tools may only be used at the high school level, while other tools may only be used by staff.

Laws and Acts AI Tools Must Follow

Source: web page, Overview

Use of AI systems and tools must be safe and effective for students and staff. Additionally, we must adhere to the following laws/acts:

FERPA - Family Educational Rights and Privacy Act:

Protects the privacy of student education records & gives parents certain rights regarding student education records

AI systems must protect the privacy of student education records and comply with any parental consent requirements.

Data must remain within the direct control of MPS.

COPPA - Children's Online Privacy Protection Act:

Imposes requirements on websites and online services directed to children under 13 years of age, or that collect personal information from a child under 13.

AI chatbots, personalized learning platforms, and other technologies collecting personal information and user data on children under 13 must require parental consent.

Troubleshooting: Tools Not Approved, Blocked Tools, and PII

Source: web page, Troubleshooting

The tool/site I want to use isn't approved by MPS

MPS staff may request software by following the process outlined on MPS Digital Resource Standards Site .

I can't open ChatGTP

ChatGTP is not allowed for use at MPS. It does not meet MPS data privacy and security standards. As a result, the ChatGTP website is blocked.

What's PII?

PII stands for personal identifiable information. Working in education means that there are several data privacy laws which apply to us and our use of AI tools. Reference our Best Practices guide for examples of PII.
