Portland Public Schools Artificial Intelligence in PPS Web Page: Data and Student Privacy Passages

Excerpted verbatim from *Artificial Intelligence in PPS (Portland Public Schools, Office of Teaching and Learning web page)*. The source has no page numbers; locations are given by section. This is a web page (roadmap, accomplishments and FAQ), so no page numbers apply. Ellipses (…) mark omitted text.

Tech & Operations: IT, Security, Operations & Business (Year 2 Goals, excerpt)

Source: web page, Year 2 Goals roadmap

- Develop adoption process for education technology
- Launch new process for digital tool vetting with restriction; include communication with staff, teachers and supervisors/principals that this is not allowed
- Screen time measuring and monitoring on district provided chromebooks
- Create and socialize a “Current State of Technology at PPS” overview that focuses on in-classroom technology topics such as screen time, AI usage, and filtering/monitoring
- Develop process to review apps for access since LearnPlatform is going away
- Research use case practices for AI in business operations (hiring, interviews, contract writing, legal review, security, data analysis, attribution, data privacy)

Community & Culture: Community Engagement & Feedback (Year 2 Goals, excerpt)

Source: web page, Year 2 Goals roadmap

- What screen time measuring and monitoring will and will not capture data. Who gets this information on a consistent basis?
- Update PPS AI website on what to do when there are deepfakes, saying you said something when you did not, current research

What We Accomplished: Strategy & Governance (excerpt)

Source: web page, 'What We Accomplished'

- Identified current district policies related to technology use, data privacy, and student conduct related to AI
- Review technology and privacy policies

What We Accomplished: Tech & Operations (excerpt)

Source: web page, 'What We Accomplished'

- Assessment of current AI systems
- Develop security policy

AI and Technology Use at PPS: General Information & Policies (excerpt)

Source: web page, FAQ 'General Information & Policies'

What is PPS's stance on using AI?

PPS views AI as a tool to support and enhance human work, not replace it. The district encourages the intentional, ethical, and safe exploration of AI to amplify creativity and personalize learning while upholding our commitments to equity and data privacy.

Are there different rules for different AI tools?

Yes. PPS categorizes tools into "Approved" (vetted for privacy and safety) and "Non-Approved". You can search for approved tools in the PPS LearnPlatform App Library.

Data Privacy & Security

Source: web page, FAQ section 'Data Privacy & Security'

Can I enter student names or grades into an AI tool?

Never upload student work, grades, or Personally Identifiable Information (PII) into AI tools unless the district has specifically authorized it and a Data Privacy Agreement (DPA) is in place.

Which AI tool is recommended for the best privacy?

Staff are encouraged to use Google Gemini. When used with district accounts, Gemini provides enterprise-grade security, and your data is not used to train AI models.

Guidance for Families: Key Considerations (excerpt)

Source: web page, FAQ 'Guidance for Families'

- Data Privacy and Oversharing Risks
- Awareness of Media Manipulation and Deepfakes
