How AI Supports Your Child's Learning (excerpt)

Source: web page, section 'How AI Supports Your Child's Learning'

- AI helps teachers analyze student progress and adjust instruction accordingly. Teachers will have the ability to see how students interact with AI models and create modalities to further their learning.

Privacy, Safety, and Data Security

Source: web page, section 'Privacy, Safety, and Data Security'

We take student data privacy seriously. Any AI tools used in our district are vetted to comply with all student data protection laws and privacy guidelines. We never use AI tools that collect personal information and we verify the tools we use follow the same standards of privacy and security.
